DESCRIPTION

Pomme takes its shape from a softened geometry, rounded and settled. The form carries a gentle fullness that feels welcoming in a space. Its character comes from how the surface meets the light, creating depth that shifts slowly across the curve. Each size holds this feeling with clarity, offering presence that feels natural and steady. Designed in house at RBW, Pomme reflects careful study of shape, proportion, and tone. A fixture that brings warmth and structure, shaping the room in a way that feels lived-in and intentional.
