Item	Qty	Description
1	1	Deep Canopy
2	1	Assembly: Deep Canopy. Single Cable Suspension
3	1	Canopy: Single Cable Cover
4	4	#4-40 x 1/4" Pan Head Screw

* If provided driver does not fit in canopy, it must be installed in an external location

Installation - Driver (skip if driver is remotely located)

1. Fasten included driver to corresponding hole pattern in Driver Mount with #4-40 x 1/4" Pan Head Screws.
2. Connect Power Feed leads to respective Driver leads and tuck wires into the center of the Driver Mount.
3. Connect mains voltage to Driver and connect ground strap according to electrical code.

* Measure approximate hang height, add 3 inches and trim cable and power feed before step 6.

Installation - Cord and Cable

4. Attach appropriate fasteners to desired mounting location leaving enough clearance to secure Driver Mount.
5. Pass product Power Feed and Aircraft Cable through Single Cable Cover and Round Deep Canopy.
6. Feed Aircraft Cable through Cable Grip and adjust to desired length.
7. Insert Power Cord into Heyco Cable Clamp and tighten Cable Clamp at desired length.

* Driver Mount installation requires 2 people

Installation - Driver Mount

8. Raise Driver Mount with hanging product to mounting fasteners and rotate.
9. Tighten Fasteners fully to secure Driver Mount to ceiling mounting surface.

Installation - Canopy Cover & Single Cable Cover

10. Raise Round Deep Canopy to the Driver mount and locate the back facing slot in Canopy Cover.
11. Insert back facing tab from Driver Mount into Deep Canopy slot.
12. Locate front facing slot in Deep Canopy, raise it to corresponding Driver Mount tab and snap in place.
13. Raise Single Cable Cover to Deep Canopy and snap in place.
14. Congratulations! End of guide.
